RALEIGH

Jacobs Novartis – We are entering the final stages of the Fill Finish Building project for Jacobs in Holly Springs. Punch lists are being developed and areas will begin to turn over to the owner in the next few weeks. Remaining scope includes completion of door hardware/operators, glass and glazing, rubber flooring, wire mesh partitions, concrete floor staining, sliding doors and stainless steel bumper rails. Handling this project are Eric Paz, Alejandro Alonso, Victor Contreras, Raul Hernandez, Manuel Naranjo, Yuri Martinez, Manuel Lainez, Vicente Quintero, Alfredo Teran, Ancelmo Cardenas, Daniel Huerta, Cruz Meza, Alfredo Camano, Candelario Gutierrez, Rafael Marban, Moises Chavarria and Freddy Hernandez. Many thanks to all for your hard work staying on schedule, staying safe and producing quality work.

AES Novartis – On the same site in Holly Springs, we are installing AES' Walkable Ceiling System – approx. 100,000 SF in two separate buildings. The Fill Finish Building is complete and we are roughly 65% complete now in the larger Bulk Building. This project has really picked up speed recently, with Jacobs receiving the equipment, the schedules are accelerating greatly. Handling this project is Juan Macedo, Carlos Macedo, Calvin Freeman, Alejandro Vega, Arcadio Sanchez, Mario Linares, Roberto Mirales, Bernardo Cardenas, Jose Alvirde, Daniel Ortiz, Salomon Paz, Guadalupe Diaz, Antonio Figueroa, Jose Beltran and Domingo Nicolas. Excellent job guys – completed work looks great and the customer is pleased.

AES Becton Dickinson – We recently began this walkable ceiling install for AES in Wilson, NC. Phase 1 installation is completed (except for cove trims), and we will remobilize to begin Phase 2 in the next few weeks. Many thanks to Louie Pennington and Jeff Easler for traveling from Charlotte to help out. Also working on this project is Pablo Gomez, Ancelmo Cardenas, Yuri Martinez, Manuel Lainez, Eric Maldonado and Ignacio Rincon. Good job to all.

Zachry Becton Dickinson – On the same site in Wilson, we are installing 3-hour shaft-walls for Zachry. We have 3-hour shaft-walls to build in 8 different areas, for fire separation of future expansion. Handling this project has been Billie Surlles, David Almanzar, Servando Bustos, Pablo Gomez, Ancelmo Cardenas, Jose Beltran, Eric Maldonado and Ignacio Rincon. This has been a hot one recently – lots of roof work – stay cool and keep up the good work.

Eisai Parenteral – We returned last week and completed this project for Yonkers with the installation of remaining Citadel panels in the Clinical Filling Room. The Filling Rooms look great, a big difference from the painted drywall in other areas. Great job to Pablo Gomez, Ancelmo Cardenas, Eric Maldonado and Ignacio Rincon – your hard work really paid off. Keep up the good work. Thank you to our truck driver, Earl Bunch, for your support. Stay safe and keep up the great work.

From the desk of Tom Santospago

Merck VMF 102

Joe Cash, along with 4 Flores Finishers and 2 Flores Mechanics, are working on the various changes that keep arising on this project. The base contract has been completed, with nothing but punch list and change items remain. Thank you men for all the hard work you have put into this project. *From John Spies desk*

EMPLOYEE NEWS

BABY NEWS— Michael Jacobson is a brand new daddy. His son Eli, was born on June 22, 2009, weighing in 8 lbs. 8oz. Congratulations also to Fred Jacobson on becoming a grand-daddy! *Sharing Eli's photo below:*

Terry Fry has traveled to Atlanta today for the birth of his 1st grandchild. More news next newsletter!

EMPLOYEE OUT— Tommy Caudle is out due to on-going medical problems. Mario Escobar has complications from a car accident.

SYMPATHY

Kenny Scruggs father passed away in July. Please keep this family in your prayers.

**ENVIRONAMICS SERVICE ANNIVERSARY
WOW!—29 years—on August 8th, 2009
08-08-80**

**OFFICE CLOSED FOR LABOR DAY
Monday, September 7, 2009**

Please check with Project Managers to see if your job will be working that weekend or Monday.

TAPE, MUD, SAND & FINISH— GET SET GO!

Ritz Carlton – Downtown's newest hotel is set to open to the paying public in only a couple of more months. Almost all the high end finishes have been completed and the cleaning crews are set to begin in the coming weeks. 99% of the wall's layout was correct and coordinated perfectly with the stone and wood veneers that cover almost every bit of wallboard that we hung. Many thanks to Brian Spencer, Gardner Bates and Nelson Portillo for their leadership roles in handling the quality control while meeting the job schedule at the same time.

Founders Hall – Portions of Founders Hall are set to open towards the middle of September when the new bridges that span over top of College St. are opened to the public, which will connect the Ritz Carlton Hotel, BOA Urban Garden and Founders Hall. A big push is ahead in the coming weeks to finish out the bridge lobby inside Founders Hall including fire rated egress corridors in order to meet the fire

Thanks to Craig and Tony Reynolds along with Ronald Perry and Alcides Campos.

Founders Hall Restaurant - A new fine dining restaurant is being built on the first level of Founders Hall and will be accessed of Trade St. between College and Tryon. The restaurant was converted at the space that was formerly the police parking drive through. The story restaurant's 2nd floor ceilings have been hung out and the first floor ceilings are not far behind. The kitchen walls are wrapped with FRP to make for easy kitchen clean up. The kitchen also features a 3,000-pound pizza oven. Thanks to Boyce Gregory for keeping up with the detailed drawings and Marvin Portillo for handling the level 5 finish.

From the desk of Vince Christopher

FABRICATE—IT'S A WRAP

Advance TEC:

Environamics just finished the cell culture Suite clean room for KBI Biopharma in Durham, NC. for Advance TEC the end of July. This included a walkable ceiling, clean-room panels and doors, crash rail and several other miscellaneous items for Advance TEC. Al Kalemkiewicz, Ray Feyers, Robby Caudle and Steven Caudle completed this work. The job looks great and the contractor and customer are very pleased.

Childress Klein Properties:

Jerry Rivers and Reese King just completed a small repair job for CKP at the Lakepointe site for Vanguard located in Two Waterridge. This job consisted of furnishing and installing drywall and acoustical ceiling to two floors where they had a sprinkler pipe break and water damage occurred. Jerry and Reese also did a small ceiling job on the 43rd Floor of One Wachovia Center for CKP downtown. They replaced the regular ceiling tile in a Hot Water Heater Room with vinyl covered sheetrock tiles.

Doerre Construction:

We are in the process of completing a small drywall project for Doerre called Planit Solutions. It is located in the One Water Ridge Building at the Lakepointe Business Park. Jerry Rivers, Reese King, James Caudle and Rebecca Grimaldo did this work in a short amount of time and had it ready on schedule. Jerry, Reese, Steven Caudle, Aaron Mancinelli and a finisher are also doing another project called Rogers Benefits located in the Vanguard Business Park off of Tyvola Road. This small project consists of deck /ceiling high drywall and acoustical ceiling work. We've also just completed two other drywall projects for Doerre. One was Mesa Associates in Fort Mill and the other was the One Wachovia Fall Protection Project. Bobby Caudle and Aaron Mancinelli handled the One Wachovia Project and Bobby Caudle, Aaron Mancinelli, Jerry Rivers, Reese King, James Caudle and Jabari Lockhart handled the Mesa job. We are also working for Doerre on the Oracle Upfit in Ballantyne, the Portman Holdings Project in the Interstate Towers Building and finishing the 3730 Perimeter Pointe Parkway Project.

From the desk of Butch Gardner & Gary Smith

INSTALL, FRAME & HANG IN THERE

ITT Technical Institute:

ITT has contracted out Environamics to do a small project for them at their Lakepointe Office. This work consists of topping out an existing room with metal framing, drywall and fire safing to make it a fire rated room. The doorframe and door will also be replaced and upgraded for rating purposes. Jerry Rivers and Reese King have just started this project.

R. T. Dooley Upfits:

R. T. Dooley recently awarded Environamics the drywall and acoustic ceilings for a project in Whitehall called Octapharma Plasma. This full floor project is underway on a fast pace schedule and is being handled by Brian Spencer, Joseph Aguilera, Bobby Caudle and Flores Drywall. This project is scheduled to be completed with tile and grid along with level 5 walls by the end of August. We have just begun the Ally Bank (GMAC) Project, for RT Dooley, in the 440 S. Church Building. This is a 5-story drywall and aluminum frames project with a very aggressive schedule. So far, we have had Al Kalemkiewicz, Ray Feyers, Steven Caudle, Aaron Mancinelli and Flores framer/hangers working on this job.

Tyler 2 Construction:

Environamics has just completed the Wachovia CIC 2B1 PTO Room project for Tyler 2. The perforated raised floor panels were installed

per Tyler 2 instructions by Jerry Rivers and Reese King. Thank you, guys, for your hard work.

From the Desk of Butch Gardner and Gary Smith

ON THE ROAD AGAIN

North Carolina

Time Warner Cable building in Morrisville, NC has approx. 4,000 LF of V-Wall product installed.

We have completed the project under the direction of John Caulder. We added some wood veneer panels on the lobby wall. Their "ribbon cutting ceremony" was on August 5th. John Caulder and Dimas Alvarado completed an M-Wall project for **Portman Holdings** in the Interstate Tower Building on the 26th floor in downtown Charlotte. Environamics also did the drywall work on this project for Doerre Construction.

Alabama

Installation Group recently installed some V-Wall product at **Fort Rucker Lyster Army Hospital** at Fort Rucker, AL.

Kentucky

Installation Group were at the University of Kentucky – Seaton Center installing a new V-Wall office.

From the desk of Fred Jacobson and Dove Sifers-Putman

WORK STACKING UP

Georgia

Marcos Carranza, Francisco Romero, Noah Hunt & Eddie Adams were at **Fort Gillem Crime Lab** installing new V-Wall offices. John Caulder and Andy Johnson completed the final phase of this project. Danny Dalton and Bill Geer installed Phase #1 of a glass front project for **AIG in Alpharetta**. The glass fronts had 4 colors of translucent window film along with an oval pattern. Phase 2 is scheduled for the 3rd week in August. Environamics completed a 500 LF, 10' high V-Wall project at **Robins AFB in Building 255**. John Caulder was the foreman on the project along with Andy Johnson, Marcos Carranza, Danny Dalton, Bill Geer and Fred Karr. John Caulder and Andy Johnson completed a project on the second floor of **Building 230 at Robins AFB**. The project had 95 LF of 10' high V-Wall with clerestory glass.

Ohio

Danny Dalton traveled to Columbus, OH to work with the installers on installing new E-Wall conference rooms with sliding doors for **Grange Insurance Company**. They will have installed 10 conference rooms when the project is completed.

Florida

Marcos Carranza and Dimas Alvarado have been traveling in Florida. They were at **Broward County Waste and Water**, reconfiguring some existing V-Wall product. They installed a new office for the **Broward County Medical Examiners**. They traveled to the **University of South Florida** in Tampa adding a new M-Wall office. They were in Orlando, FL to install two new conference rooms for **Orange County Public School** districts headquarters. Marcos, Dimas, Francisco and Noel were at the **Ft. Lauderdale Airport** to install a large room and single office for use as a temporary location for lost luggage.

CHARLOTTE WAREHOUSE

Thanks to the warehouse employees for getting the materials ready for these and other jobs and to the truck-drivers for delivery and pick-up of materials.

From the desk of Fred Jacobson and Dove Sifers-Putman

HAMMER TIME!

CHARLOTTE WAREHOUSE—

The first Phase of our parking lot repairs was scheduled for Sat. and Sun. Aug 8th and 9th. Please be aware of all orange cones if you are working any weekends **over the next month** as we may be parking people in different areas to accommodate the repairs. Thanks to David Woods, Antonio Knox, and Demario Hoover for their help in the preparations for these repairs and for all of the long hours taking care of all of our field projects. Thanks also to our entire Fabrication Department in helping to keep the Warehouse clean while the rest of us are working out back.

From the desk of Seth Moody

Hosted Solutions

The Data Center facility is being constructed by D.H. Griffin from Raleigh in the Coffey Creek Business Park. The project consist of 2-hr. partitions, and 13/ga security mesh to 24'-0" decks. Everything is on a fast track schedule and Robby Caudle has done a good job coordinating things with the General Contractor. Rebecca Grimaldo started the finishing on August 6th and the Flores employees who are assisting: Fermin Lara, Osmina Chow, Bonito Sosa, and Roman Cassiles

Lowe's Pharmacy

This was a RT Dooley project in the Lowe's headquarters in Mooresville consisting of renovating an existing space into a pharmacy. Louie Pennington, Jeff Easler and Aaron Mancinelli started the demolition and drywall. Alan Cooke did the finishing, Gardner Bates installed the ceiling grid and Reese King completed the ceiling tile installation.

TOP OF THE HILL—CAPITOL CITY

Department of Transportation, Washington, DC

Environamics is currently completing the final two floors (8 West & 6 West) of the demountable partitions on the Redline phase 2 project @ the DOT Headquarters building in Washington, DC. Roger Love has done an outstanding job in overseeing this project and ensuring that we maintained the construction schedule and dealt with many other obstacles (occupied building, security issues, and interferences with our work). Also, many thanks to Noah Hunt, Eddie Adams, Elvin Sarceno, and David Therrian for traveling from Charlotte for the past (3) months and working long hours and weekends to ensure that we stay on schedule. Thanks to the Charlotte warehouse for all your hard work in getting product fabricated and on the road so quickly! DOT is very happy with all of your efforts to this point. Keep up the hard and safe work!

Mullinax, Richard Muellemann, Olvin Lopez, Noel Carranza, Francisco Romero, Hector Olvera, Oscar Juarez Rivera, Andy Lemmonds, Marcos Carranza, and Ramon Bojorge for all your hard work over the past months and dedication shown in the completion of this project. Joey and his crew have done an outstanding job in keeping up the very aggressive schedule and coordinating with the other trades. Currently the clean rooms ceilings are complete and the walls are 90% complete. Important upcoming activities include completion of the air shafts, installation of doors and frames, and completion of all trims and caulking. Keep up the hard and safe work! Great job guys!

From the desk of John Santospage

United Therapeutics- Silver Spring, MD

Environamics is in the final stages of completing the installation of the clean room walls and ceilings for AES Clean Technologies in Silver Spring, MD. Many thanks to Jim Montgomery, Brett Ouimet, Bobby Shifflet, Enrique Castro, Flortino Argueta, Edwin Castro, Jose Rivas, Francisco Sosa, and Luis Galindo for all of your hard work on this project to date. To date Environamics is complete with clean room ceiling panels and approx. 90% complete with the clean room walls. Important upcoming activities include installation of hard wall liner @ the 3rd floor, installation of doors and frames, and continued installation of trims and caulking throughout. Keep up all the hard work. Thanks again!

“Watch for our new updated website for Environamics....currently under construction. Should be up and running soon!”

Cook Pharma- Bloomington, Indiana

Environamics is in the process of completing the installation of clean room walls and ceilings for AES Technologies in Bloomington, Indiana. Many thanks to Joey Reynolds, Marty Lawter, John Nemeth, Bill Nemeth, Jason
